

MyIntealth Status

This page provides the current status of the MyIntealth environment.

Preparing for Launch!

At 8:00 a.m., ET, on August 14, we took our systems offline and began the transition to MyIntealth, the new online environment for accessing services offered by Intealth and its divisions. MyIntealth is expected to launch within 4-6 days.

The *World Directory of Medical Schools* also is unavailable during the transition.

We are currently securely migrating data and preparing to launch enhanced services. Our [customer service](#) teams are available during this brief transition period to provide support and answer general inquiries.

We appreciate your patience and partnership as we make this important transition. Thank you for your continued trust in Intealth.

About MyIntealth

MyIntealth will replace dozens of older applications, including IWA, OASIS, the ECFMG Credentials Upload Tool, EVNet, CVS Online, EMSWP, and the EPIC portals. This new technology platform will provide users with streamlined access to services and improved functionality. Learn more about MyIntealth [here](#).
